REGISTRAR

SYSTEM OF EVALUATION AND AWARD OF DEGREE (BE / B.PHARM)

1. • On the basis of his/her performance in examinations, assignments, practical exam (if any) student is awarded a grade. These grades are described by the letters AA, AB, BB etc. and have a numerical equivalent called the grade point as given below:

GRADE	AA	AB	BB	BC	CC	CD	DD	FF
POINTS	10	09	08	07	06	05	04	00

- The medium of Instruction is English.-
- The grade FF is taken into consideration while calculating SPI & CPI, however, these will be replaced only after the clearance of the subject with the passing grade.

2. The performance of the student in a semester is indicated by a number called the Semester Performance Index (SPI). The SPI is the weighted average of the grade points obtained in all the subjects taken by the student during the semester.

Example: Suppose in a given semester a student has taken subjects having credits C1, C2, C3, C4, C5 ….. And the numerical equivalent of grades obtained in those subjects are G1,G2,G3,G4,G5…… respectively.

Then his/ her SPI will be calculated (after re-examination, if any) up to two decimal places on the basis of the final grades.

An up-to-date assessment from the time the student entered the course is obtained by calculating Cumulative Performance index (CPI). The CPI is the weighted average of the grade points obtained in all the subjects taken by the student since he/she entered the course. It is calculated in the same manner as the SPI. The CGPA is the weighted average of the grade points obtained in all the subjects in the last four semester of the course.

3. Backlog indicates failure in respective subjects. For continuation of study maximum 4 backlogs are permitted, excluding backlog in immediate previous semester.

4. **Abbreviations:**

*E: External Exam *M: test/Quizzes/mid terms and /or assignments etc. conducted by college.
*I: Internal *V: Viva/Practical #: Absent Y: Yes
RG_NO: Regular exam held in Year **RM_NO**: Remedial exam held in Year
CR: Credit Earn for subject **GR**: Grade based on performance
TH: Theory hours per week **PT**: Practical hours per week and/or Tutorial hours per week.
EXAM: Examinations held by university
WI_NO: Winter examinations held in year (Odd semester Regular/Even semester Remedial)
SU_NO: Summer examination held in year (Even semester Regular/Odd semester Remedial)
ADMISSION: **Regular**: 12th science passed entry at 1st year
D2D: Diploma holder of relevant branch, lateral entry at 2nd year (3rd semester of degree course)

5. An equation to find equivalency between CPI/CGPA may be obtained as follow:
Percentage Marks = (CPI/CGPA — 0.5) x 10.
CPI/CGPA Equivalent Class shall be as follow:

CPI/CGPA	Below 5.5	5.5 & above	6.5 & above	7.1 & above
CLASS	Pass class	Second class	First class	First class with distinction

6.
- For all courses, where the duration of the course is more than 2 years, the degree shall be awarded to the students on the basis of CGPA (Cumulative Grade Point Average) of the last four semester's performance in the exams.
- In case of the courses where duration is of two years, the degree shall be conferred to students based upon CPI (Cumulative Performance Index) considering all the four semesters performance.

7. For B.pharm semester 7 and 8, 1.5 Hours of practical teaching is equivalent to 1 credit.

Letter of Recommendation

I am writing to you in support of Raval Jigarkumar Rameshkumar (Information Technology ,210160116087) . I have always been impressed with his approach and attitude. I have witnessed his keen interest and a real drive in almost all of the subjects. He comes across as an outstanding individual with a strong character, completely determined to gain a solid foundation in his studies and all curricular/extra-curricular activities core subjects. I had the opportunity to teach him the subject of **Computer Networks** during his undergraduate studies and found him to be a diligent and intellectually curious learner.

Computer Networks is a subject that demands clarity of understanding in both theory and application, as it forms the backbone of modern computing. Jigarkumar consistently demonstrated a strong grasp of key networking principles, including OSI and TCP/IP models, routing algorithms, IP addressing, socket programming, and network security fundamentals. His ability to apply theoretical concepts to practical scenarios stood out in lab work and assessments.

He showed great enthusiasm for learning how various components of a network interact, and he often took initiative in debugging network simulations and contributing insights during discussions. His logical approach to problem-solving and his eagerness to explore concepts in depth made him one of the more active participants in class.

I would like to draw your attention to one very important fact that Jigarkumar has been securing top rank in the class. He is extremely strong at his basics and fundamentals. I have also observed that he spends hours in the laboratory and his lab-work was very precise.

His passion to perform and focus towards achieving his educational goals will surely be successful at your instiitute. I completely support his decision to pursue the said course.

Sincerely,
